UK TRADE SUPPORT Product Launch:

"The British Chamber of Commerce located in the British Slovak Business Centre of Bratislava's Old Town hosted a product launch event which resulted in an incredibly important boost for the promotion of our company's name, products, and services within both the Slovak and the wider EEC area. The carefully selected invitees / networking individuals, detailed planning, attention to detail (such as fine catering), and professionalism of the team proved to be a success that we could not have achieved alone. The fee for the event was very reasonable and was easily dwarfed by its success and in turn the continued success.

The advice and support given to us along with the strong backing of the British Chamber of Commerce meant that the targeted companies, and indeed the key individuals attending, took the event with the utmost seriousness. This gave us an increased chance to establish our name and products in the Slovak market. Since the event, our business networking efforts have become easier, and as a result, we are closing our first sales and gaining the exposure that will ultimately lead to further sales. I would without hesitation recommend any UK business looking to enter or indeed increase their exposure in the Slovak/EEC market place to do so through the BSBC and their event hosting service."
